

Univariate Boxplot of value

Detecting values out of the Confidence Interval

$CI = \text{Median} \pm 3 \text{ MAD}$

5 outliers are detected

Normal Q-Q Plot for value

Normal Q-Q Plot for value

Detecting values out of the Confidence Interval

CI = Median \pm 3 MAD

1 outliers are detected

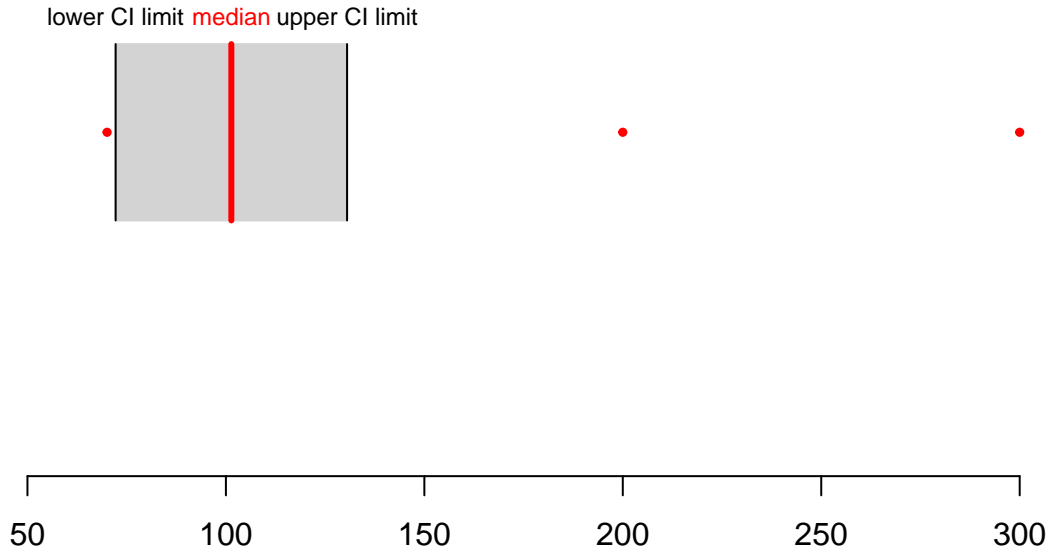

Normal Q-Q Plot for value

Detecting values out of the Confidence Interval

$$CI = \text{Median} \pm 3 \text{ MAD}$$

3 outliers are detected

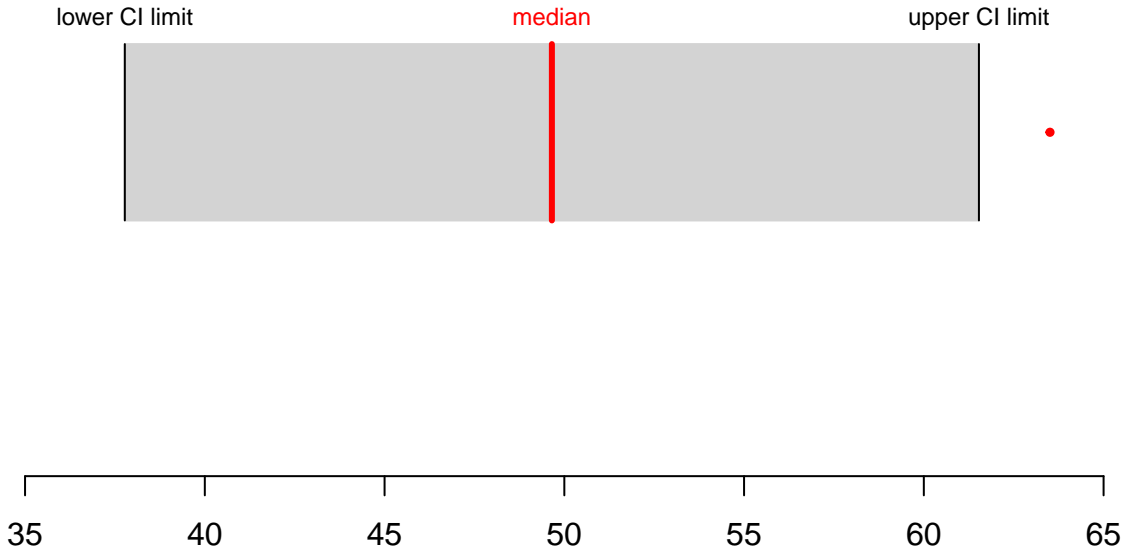

Normal Q-Q Plot for value

Detecting values out of the Confidence Interval

$CI = \text{Median} \pm 3 \text{ MAD}$

1 outliers are detected

Normal Q-Q Plot for value

Detecting values out of the Confidence Interval

$$CI = \text{Median} \pm 3 \text{ MAD}$$

3 outliers are detected
